OBJECTIVE

Seeking out for summer internship to gain new skills and experience. Waiting for the opportunity for applying the knowledge on practise.

EDUCATION

B.Sc in Computer Science	2019-2023
<i>Department of Applied Mathematics and Computer Science</i>	
<i>ITMO University, Saint-Petersburg</i>	
<i>Completed 2nd year 3st semester</i>	
<i>CGPA: 4.85(5.00)</i>	
Higher School Certificate	2019
<i>Higher School №619, Saint-Petersburg, Russia.</i>	
<i>Obtained GPA: 5.00 (scale 5.00)</i>	

SKILLS

- **Languages** : Java, Swift, C, C++, Javascript, Clojure (in order of knowledge)
- **Technologies**: UIKit, SwiftUI
- **Tools** : IntelliJ Idea, Clion, XCode
- **Algorithm, Data Structure, Discrete Math**

PROJECTS

- **Unicode translator**, C application, that translate text from one Unicode format to another. If Unicode representation of text has bytes' errors then translating from this format to another and back give source file.
- **Solver of system of linear equations**, which use Gauss method and iterative method for finding closest answer. C application.
- **Long-arithmetic**, long-arithmetic written on C++, where you can use arithmetic operations.
- **Easy Task Executor**, Java application, which create plan of tasks executing according their dependencies.
- **Multi-thread image downloader**, a Swift application, that use GCD for multi-thread operations. Downloaded images are saved on device.
- **ToDo list** written on Swift by using SwiftUI.
